## What is this type of insurance?

Extended Warranty is designed to provide protection for the costs of repairing or replacing vehicle components, should they fail during the period of cover.

### What is insured?

- ✓ Your vehicle is insured as identified in your Confirmation of Cover.
  - ✓ We will pay for the costs of repairing or replacing the factory-fitted mechanical and electrical components of your vehicle, listed in the Cover Booklet, that have suffered sudden and unexpected failure during the period of cover. This is subject to the maximum claim limit and terms and conditions.
  - ✓ The following named components are insured: All braking system components (however, brake frictional material is excluded), all clutch components (however, clutch frictional material, except Automatic and DSG Gearbox, is excluded), all drive-line and four wheel drive components, electrics, electric and hybrid drive components, engine, all exhaust treatment system components; exhaust gas recirculation and AD-Blue system (excluding gaskets, lines, pipes and tank), gearbox, heating and cooling, locking system, oil leaks, steering system, and suspension. For full details, please refer to your Cover Booklet.
- Maximum Claim Limit: The most we will pay per claim is £1,000. However, if the market value of your vehicle is under £1,000, the maximum we will pay is the market value of your vehicle taken at the time of sudden failure including VAT.

If you have chosen to pay an excess, you will be responsible for the first part of each claim. The amount you have chosen will be shown in your Confirmation of Cover.
